# REPORT OF SCHOOL BOARD.

---

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

*To the School Board and Citizens of Landaff:*

I herewith present to you my fourth annual report of the condition of your schools.

I wish to call to your attention some sections of the Public Statutes regarding schools. The first is with regard to attendance: "Every person having the custody and control of a child between the ages of eight and fourteen years, or of a child under the age of sixteen years, unless such child shall have completed the course of study prescribed for the elementary school, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session, unless the child shall be excused by the school board of the district because his physical or mental condition is such as to prevent his attendance at school for the period required, or because he was instructed in the English language in a private school approved by the school board for a number of weeks equal to that in which the public school was in session in the common English branches, or, having acquired those branches, in other more advanced branches. Any person who does not comply with the requirements of this section shall be fined ten dollars for the first offense and twenty dollars for every subsequent offense, for the use of the district."

It will be noted that this section was amended by the last legislature so that the compulsory school age was made eight to sixteen years.

Your attention is called to the sources of our school money:

1. (a) The regular school money, i. e., \$750 for every dollar of the state tax apportioned to the town. Under the new apportionment the amount required by law to be raised in Landaff is \$802.50.
- (b) Money for payment of high school tuition.
- (c) Money for text-books and pupils' supplies.
- (d) Flags and appurtenances.
2. Money additional to amount required by law—to be voted upon at school meeting.
- (a) Additional for general school purposes. This includes salaries of teachers, superintendent and the general running expenses of the schools.
- (b) Salaries of school board, truant officer, and other district officers.
- (c) Medical inspection if voted by the district.
- (d) Appropriations for repair of buildings or for the building of new ones. Five percent only of the regular school money can be used for repairs. All further money necessary must be voted by the district.
3. Money received from the state:
- (a) Allowance for average attendance of pupils. In order to secure this money a district must maintain its schools for at least thirty weeks and must have a tax rate of at least \$3.40 on one thousand dollars of equalized valuation. The amount also depends upon the equalized valuation per pupil.
- (b) Allowance for approved teachers, i. e., graduates of approved normal schools or teachers who hold a permanent state certificate. Two dollars is allowed a district a week for every approved teacher.

(c) Rebate on high school tuition. This amount depends upon the rate of taxation. If the tax rate has averaged \$16.50 to \$17.49 for five years the amount is equal to one tenth of the tuition paid. This varies according to the rate of taxation up to \$25.49 or over when the whole amount of the tuition is paid by the state.

(d) Literary fund. This fund is made up from taxes collected by the state upon all deposits, stock, etc., of persons or corporations who do not reside in this state. It is divided among the towns in proportion to the number of scholars not less than five years of age who attend the public schools not less than two weeks.

4. Dog tax. All money arising from the taxation and licensing of dogs not used in paying damages done by dogs is given to districts for school purposes.

5. Income from local lands or funds.

It will be seen from the above that the state gives aid to a town in proportion to the extent the town is willing to help itself. The more money a town raises by taxation for the support of its schools the more it will receive from the state. It will also be seen that the amount of money received under 3 (a) depends upon the attendance of the children. Each session's attendance means so much more money from the state. Each session's absence means not only a loss to the pupil in his school work but a financial loss to the district as well.

#### Suggestions:

(a) It is hoped that the grange will again encourage the pupils to make an exhibit at the annual fair. The only way we can keep our boys and girls at home and on the farms is by interesting them in things pertaining to the home and the farm.

- (b) When the state has a law as stringent as the section in the first of this report it seems unnecessary to say anything further in regard to attendance. Yet there are many people who still persist in keeping their children at home for the most trivial reasons. Not only should a child attend each session of school but he should attend the whole session and not be allowed to be tardy or late unless for a very urgent reason.
- (c) Every parent has a duty to inform himself of the kind of a school his child is attending. This information can be obtained only by visits to the school. In no way can so much harm be done to our schools and the boys and girls as by the idle gossip of a few "news-mongers" who know absolutely nothing about the true conditions.
- (d) The Ireland schoolhouse needs to be painted and the Blue and Center houses need new floors and desks.
- (e) The school year should be lengthened. It is not fair to your children to expect that they will be able to accomplish as much in thirty weeks in schools of several grades as children do who attend a school of one or two grades for thirty-six weeks in the year.

The superintendent will be glad to consult with any person in regard to any child or to anything that pertains to your schools at any time.

The greatest efficiency in the schools cannot be reached until all work together for the best interests of the schools. The teachers and superintendent will try to do their part. Will you, parents and taxpayers, endeavor to do your part?

Respectfully submitted,

JOHN S. GILMAN.
